

'INTELLIGENT' PRESSURE- AND LEVEL TRANSMITTERS

For all industries

Series 2000

- ALL HART® (2000)
- 4-20 mA ANALOG OUTPUT AND HART® (2000)
- 1000 PSI (70)
- 0-100 INCH WATER COLUMN
- 4-20 mA ANALOG I/O
- 1000 PSI (70)
- 0-100 INCH WATER COLUMN
- 4-20 mA ANALOG I/O
- 1000 PSI (70)
- 0-100 INCH WATER COLUMN
- 4-20 mA ANALOG I/O

HART

Description

The Series 2000 is a complete range of intelligent pressure and level transmitters offering rugged and accurate performance for all applications. The transmitter comes in various designs - for corrosion resistant materials selected.

The Series 2000 can deliver accurate and stable readings with a choice of output signals to meet the application. These transmitters come with and without HART for a choice of 4-20 mA or 0-10V. The 4-20 mA transmitter can be configured.

The Series 2000 is a complete range of intelligent pressure and level transmitters offering rugged and accurate performance for all applications. The transmitter comes in various designs - for corrosion resistant materials selected.
