

PRESSURE- AND LEVEL TRANSMITTERS

For all industries

Series 8000

- ▶ COMPACT and ROBUST
- ▶ STAINLESS STEEL HOUSING
- ▶ OUTPUT 4-20mA / 2-WIRE
- ▶ ZERO AND SPAN ADJUSTABLE
- ▶ VERY STRONG FLUSH INSULATED DIAPHRAGM
- ▶ LARGE RANGEABILITY
- ▶ LOCAL INDICATOR (option)
- ▶ ATENCIÓN: EN Opciones TC, Cu, Co, In, Ni, Pt, Ti, Zr, Ag, Au, Inconel

Description

The Series 8000 is a complete line of All Stainless Steel™ pressure and level transmitters for all industrial applications.

The compact and robust stainless steel housing is ideal for hygiene applications but also for harsh aggressive ambient conditions. The transmitters are fully temperature compensated. The Series 8000-GS-GS are both GPa and GPa compatible and they fully meet the needs of the food and beverage, chemical, pharmaceutical and pulp & paper industries. Both series 8000 and 8000-GS are equipped with very strong flush-mounted diaphragms.

In order to be fully compatible with the processes they are monitoring, all series 8000 units offer a wide range of process connections and a choice of wetted part materials. All versions enjoy ATEX approval for intrinsic safe applications.

8000-GS-GS Cable with separate electronics
