

The Public Health Institute for Scotland (PHIS) Strategic Framework for Public Health and Population

Strategic Purpose Objectives

PHIS is a national public health institute that provides the strategic leadership and the public health expertise for a cross-government approach to public health and population. PHIS provides strategic leadership and expertise for the national public health and population strategy, and for the development of public health and population policy and practice across Scotland.

PHIS provides strategic leadership for **public health**, **population health** and **population science** through the following strategic objectives:

Strategic Purpose Objectives

PHIS will work to ensure that Scotland is a healthy and thriving nation, where everyone has the opportunity to live a long and healthy life. PHIS will work to ensure that Scotland is a healthy and thriving nation, where everyone has the opportunity to live a long and healthy life. PHIS will work to ensure that Scotland is a healthy and thriving nation, where everyone has the opportunity to live a long and healthy life.
