

# PRESSURE- AND LEVEL TRANSMITTERS

For all industries

## Series 8000

- COMPACT AND RIGID
- STAINLESS STEEL DESIGN
- WIDE MEASUREMENT RANGE
- HIGH-ACCURACY MEASUREMENT
- WITH INTEGRATED 4-20 mA OUTPUT
- LOCAL ANALOG OUTPUT
- LOCAL ANALOG DISPLAY
- 4-20 mA TO BUS SYSTEMS (HART)

### Description

The Series 8000 pressure and level transmitters are available in stainless steel and in 316L.

The compact design allows for easy installation in tight spaces. Available in a wide range of pressure ranges and accuracies. The stainless steel design is highly resistant. The 4-20 mA output is available in both active and passive modes. The 4-20 mA output is available in both active and passive modes. The 4-20 mA output is available in both active and passive modes. The 4-20 mA output is available in both active and passive modes.
