

## PRESSURE- AND LEVEL TRANSMITTERS

For all industries

### Series 8000

- ▶ COMPACT and ROBUST
- ▶ STAINLESS STEEL HOUSING
- ▶ OUTPUT 4-20mA / 2 WIRE
- ▶ ZERO AND SPAN ADJUSTABLE
- ▶ VERY STRONG FLUSH ISOLATED DIAPHRAGM
- ▶ LARGE RANGEABILITY
- ▶ LOCAL INDICATOR (Option)
- ▶ AFFIXION TO: Ex or HC To Gas IECEx and

### Description

The Series 8000 is a complete line of All Stainless Steel™ pressure and level transmitters for all industrial applications.

The compact and robust stainless steel housing is ideal for hygiene applications but also for harsh aggressive ambient conditions. The transmitters are fully temperature compensated. The Series 8000-GS is both GPa and GP compatible and they fully meet the needs of the food and beverage, chemical, pharmaceutical and pulp & paper industries. Both series 8000 and 8000-GS are equipped with very strong flush resistant diaphragms.

In order to be fully compatible with the processes you are monitoring, all series 8000 units offer a wide range of process connections and a choice of wetted part materials. All versions enjoy IECEx approval for intrinsic safe applications.

8000-GS4 Cable with separate electronics
