

## Product Information MAN-63

FOOD

# Pressure Gauge MAN-63

## Application

- Hygienic pressure measurement

## Application examples

- Local display without power supply

## Hygienic design/Process connection

- Hygienic process connection with CLEANadapt
- Conforming to 3-A Sanitary Standard for versions with DIRECTadapt
- All wetted materials are FDA-conform
- Gauges completely made of stainless steel
- Complete overview of process connections: see order code
- The Anderson-Negele CLEANadapt system offers a flow-optimized, hygienic and easily sterilizable installation solution for sensors.

## Features

- CIP-/SIP-cleaning up to 149 °C (300 °F) / maximum 60 minutes
- IP 66, housing for optimized cleanability
- Complete device is certified by 3-A-SSI
- With CLEANadapt an easy adaption to all process connection is possible
- Zero adjustable
- Surface  $R_a \leq 0.6 \mu\text{m}$  (0.6 microns, 24 micro-inches) is standard

## Options

- Case filling with glycerine for damping
- Actuating fill with Neobee M20

## Authorizations

## MAN-63 / TC3/4

## MAN-63 / S

## Hygienic elastomer free sealing principle for MAN-63 / S
