

Digital Pressure Gauge / Pressure Switch

Features:

• Digital pressure measurement
• 0.1% accuracy over a 100psi pressure range
• Temperature up to 100°C (212°F)

Available options:

• 1/2" NPT female or male or 1/4" NPT female
• 1/2" NPT female or male or 1/4" NPT female

Applications / Process control:

• Digital pressure monitoring and controlling
• 0.1% accuracy over a 100psi pressure range
• 0.1% accuracy over a 100psi pressure range
• 0.1% accuracy over a 100psi pressure range
• 0.1% accuracy over a 100psi pressure range
• 0.1% accuracy over a 100psi pressure range
• 0.1% accuracy over a 100psi pressure range
• 0.1% accuracy over a 100psi pressure range

Notes:

• All units are calibrated and 100% tested
• All units are calibrated and 100% tested
• All units are calibrated and 100% tested
• All units are calibrated and 100% tested
• All units are calibrated and 100% tested
• All units are calibrated and 100% tested
• All units are calibrated and 100% tested
• All units are calibrated and 100% tested

Notes:

• All units are calibrated and 100% tested
• All units are calibrated and 100% tested
• All units are calibrated and 100% tested
• All units are calibrated and 100% tested

Approvals:

Model: DP-100-01
