

'INTELLIGENT' PRESSURE AND LEVEL TRANSMITTERS

For all industries

Series 4000

- ▶ ALL STAINLESS STEEL
- ▶ EASY CALIBRATION WITHOUT DEPRESSION OF INSTRUMENT ACTION AND DISPLAY
- ▶ ACCURACY: 0.075%
- ▶ TUBE BENCH TEST
- ▶ GRAPHIC DISPLAY WITH BAROGRAPH AND FACILE TO DISPLAY PRESSURE, TEMPERATURE AND BAROGRAM
- ▶ ACTIVE TEMPERATURE COMPENSATION
- ▶ DEVELOPMENT ACCORDING TO SIL 2
- ▶ REMOTE DIAGNOSTIC FUNCTION
- ▶ ALL INDUSTRIAL PROCESS CONNECTIONS
- ▶ AFTER SALES SERVICE

Description

The series 4000 is a complete line of high and medium pressure and level transmitters with a **stainless steel electronics housing**. The calibration programming can be done very easy without instrument by using the **Designer line Touch programming toolbar** together with the graphic display with backlight. The graphic display can indicate a number of chosen engineering units including the process temperature and the actual value in a barograph. Changing lines can be adjusted and unit 0/100 compensation can be performed. Various advantages for different task transmitters are available. The series 4000 is fully temperature compensated and over 40 different process connections with flush diaphragms are available. **ATEX**  **FM** (C) is CE (C) and FCC (C) approvals are available.
