### Description

The Series 8000 is a complete line of „All Stainless Steel“ pressure and leveltransmitters for all industrial applications.

The compact and **robust stainless steel housing** is ideal for hygienic applications but also for harsh aggressive ambient conditions. The transmitters are fully temperature compensated. The Series 8000-SAN are both CIP and SIP cleanable and they fully meet the needs of the food and beverage, chemical, pharmaceutical and pulp & paper industries. Both series 8000 and 8000-SAN are equipped with **very strong flush mounted diaphragms**.

In order to be fully compatible with the process they are monitoring, all series 8000 units offer a wide range of process connections and a choice of wetted parts materials. All versions enjoy ATEX approval for Intrinsic Safe applications.
