

QUESTION

Which of the following is **not** a characteristic of a **fixed** cost?
A It remains the same regardless of the level of activity.

ANSWER

Which of the following is **not** a characteristic of a **fixed** cost?
A It remains the same regardless of the level of activity.

Fixed costs are those that do not vary in proportion to changes in activity. They are those costs that do not change in total when the level of activity changes. They are those costs that are not directly related to the production process.

Fixed costs are those costs that do not vary in total when the level of activity changes.
