

Appendix 10 (MATHS) (continued)

Practising points (100-125) (See answer 101-125)

Practising log 100:

1000 - 10	Practising point	Relative temperature (°C)	
1000 - 10	Practising point	10° above zero (°C)	
1000 - 10	Practising point	Standard velocity (km/h)	
1000 - 10	Practising point	Standard time (h:m:s)	
1000 - 100	Practising point	Total of area that was forested	100%
1000 - 10	Practising point	Total of area that was deforested	100 - 10%

Total = 1000 - 100 = 900 = 90% of 1000 km²

1000	Area under:	
	1000 - increased the area above	
	1000 - increased the area above	
	1000 - increased the area above	
	1000 - increased the area above	

1000	Total area:
	1000 km ²
	1000 - 100 km ²

1000 - 10	Answer:
1000	100

1000	1000	1000	1000
1	1000	1000	1000
2	1000	1000	1000
3	1000	1000	1000
4	1000	1000	1000
5	1000	1000	1000
6	1000	1000	1000
7	1000	1000	1000
8	1000	1000	1000
9	1000	1000	1000
10	1000	1000	1000
11	1000	1000	1000
12	1000	1000	1000
13	1000	1000	1000
14	1000	1000	1000
15	1000	1000	1000
16	1000	1000	1000
17	1000	1000	1000
18	1000	1000	1000
19	1000	1000	1000
20	1000	1000	1000
