

PROBLEM

- Reduce water usage of commercial buildings by up to 40% (by up to 10% in residential)
- Support environmental goals and reduce costs of water associated with water quality management

SOLUTION

Installation of blue CO₂ cap CO₂ flush urinals with
flush volume of 0.125 gallons per flush (GPF) and 1.6
gallons per flush (GPF) for women. The system is installed in public
restrooms in public restrooms.

Features

Available in 0.125 GPF women or 1.6

GPF for both genders

- 0.125 GPF for women - provides 100% water savings
- 1.6 GPF for both genders - provides 25% water savings
- Easy installation - 1/2"
- Simple maintenance - no water meter or flush valve
